

# CONCEPT

## **Position: Soils Laboratory Technician (London)**

### **Salary: Negotiable**

Concept Site Investigations is currently seeking a Laboratory Technician to work in the soils testing laboratory. Duties will include booking samples, testing, logging and description of soils and reporting. The successful candidate may also be required to carry out site visits in order to carry out water and gas monitoring and sampling and in-situ testing.

Soils tests currently carried out to BS1377:1990, include atterberg limits, natural moisture content, particle size distribution, sulphate and pH, compaction, oedometers, triaxials and CBRs.

Some soil testing experience is desirable.

The successful candidate will be a self-motivated person with a strong attention to detail, used to working to strict deadlines and tight budgets. The salary to this position is negotiable based on experience.

Please send a covering letter with a full CV for the attention of Jon Roberts to:

Concept Site Investigations,  
8 Warple Mews,  
Warple Way,  
London W3 0RF or call on: 020 8811 2880.

Informal enquiries are welcome.
